What is it about? Chat Translator for TradeManager is a small-sized software utility that was developed specifically to aid TradeManager users in instantly translating conversations from one language to another, with support for a pretty long list of languages. Simple-to-handle layout The installation process does not last very long as it does not offer to download any third-party products or make any kind of changes to your web browser. The interface you come across can only be described as plain and simple, giving the fact that it only consists of a few buttons, two tabs and some drop-down menus. Although no Help contents are included, it becomes pretty obvious that anyone can learn how to use it, regardless of their previous experience with computers.
